

ABOUT US

SP Tools

SP Tools and SP Air is represented by numerous International agents in many countries around the world, including a number of company owned and operated offices. The range covers Air Tools, Power Tools, Hand Tools, Auto Specialty Tools, Garage Equipment, Air Compressors and other associated products. For 40 years SP has been at the forefront of design and manufacturing.

As a proudly Australian owned company we have maintained our position statement of "Manufactured for the Professional". Research, development and innovation continues to drive us to produce a better product whilst listening to and satisfying the demands of professional tradesman in the global market.

WWW.SPTOOLS.COM

For most businesses a website is one of the most important investments you can make. At SP Tools our website is the face of our global business. It allows us to provide the most up to date information to the largest audience possible. It is our best tool for communicating our product message to the professionals that use our tools and to help those professionals make the best choices.

The site gets updated on a regular basis with the latest product information, special deals, and educational video content. The SP Tools team are constantly striving to give you the information to help make your choice of tools easy, accurate and cost effective.

Customer service is as important to us as product quality. So to help both our distributors and our professional users we have made it easy to find your local outlet and or your local service dealer. We also appreciate your feedback on anything we do, so please feel free to contact us so we can continue to improve our services. SP Tools.....Manufactured for the Professional.

TESTIMONIALS

Karting Australia

The partnership between SP Tools and Karting Australia has played an integral part in providing the platform for more people across the country to "Get Started in Karting". Since launching the SP Tools Junior Sprockets program in late 2015, hundreds of young children, both boys and girls, have had the opportunity to be involved in the sport.

The recent launch of the Torini four-stroke engine for the endurance karting sector represents an exciting time for both the team at SP Tools and the Australian karting industry.

We look forward to continuing our partnership with SP Tools for many years to come.

KELVIN O'REILLY – KARTING AUSTRALIA CEO

Official Partner of Karting Australia

WE ARE A PROUD SUPPORTER OF JUNIOR SPROCKETS
