TYRE PRESSURE GAUGE - DIAL SP65508

FEATURES

- L shape design allows for increased flexibility when connecting to difficult to access tyre valves
- The air chuck can rotate 360° and is paired with a soft rubber tube to increase the flexibility during use
- Accuracy: ± 1 psi/0.1bar
- Gauge: 2.5"
- Calibration: 3-60psi/0.2-4bar

3-60 PSI	360° SWIVEL AIR CHUCK	L SHAPED AIR CHUCK	FLEXIBLE HOSE	HEAVY DUTY
---------------------	--------------------------------------	-------------------------------	--------------------------	-----------------------

DIRECTIONS:

1. Insert auto-airchuck into tyre valve completely.
2. Read pressure valve.
3. If the pressure is excessive, press the pressure relief button slightly to release some air and take readings until adequate pressure is obtained.
4. Press the button to detach the air chuck.

BARCODE: 9330514073421
PACKAGING DIMENSIONS: 104 x 225 x 50mm
WEIGHT: 0.48kg
